

## Andy Shinn

Thank you for taking a look at my model! I make my own models and often times reproduce existing parts in CAD so that I can model in-context. I hope you find this model useful for your own projects. Please find more of my models at [myshapes.andyshinn.as](https://myshapes.andyshinn.as) or on my GitHub at [github.com/andyshinn/myshapes](https://github.com/andyshinn/myshapes).

This is a generated PDF and should have any special information about this document on the right. If you find any issues or have suggestions, please feel free to reach out. I appreciate any feedback and contributions to improve the model.
